ARTICLE 1. COMMITMENT

ARTICLE 2. COMPLIANCE STATUS

solyzon.com is not compliant with the French general accessibility improvement framework (RGAA), version 4.1.2, as no compliance audit has been carried out to date. This status applies until the results of an audit are published, which will replace this paragraph.

ARTICLE 3. WHAT IS DONE FOR ACCESSIBILITY

The website is designed to meet level AA of the Web Content Accessibility Guidelines (WCAG) 2.2, on which the RGAA is based:

- structured HTML, with a single main heading per page, nested headings, identified page regions and a breadcrumb;
- full keyboard navigation, with a visible outline on the active element, and the expected keyboard patterns for menus, tabs, carousels and dialogs;
- a contrast of at least 4.5 to 1 on body text and 3 to 1 on large text;
- text alternatives on images that carry information, and decorative images ignored by screen readers;
- labelled form fields, with error messages announced to screen readers;
- respect for the device's reduced motion setting, which freezes the website's animations;
- no information conveyed by colour or hover alone.

ARTICLE 4. TECHNOLOGIES USED

HTML, CSS, JavaScript and WAI-ARIA.

ARTICLE 5. PREPARATION OF THIS STATEMENT

This statement was prepared on 17 October 2026, based on the checks made by the Solyzon team while designing the website.

Anyone who cannot access a content or a service may write to contact@solyzon.com or call +33 9 74 03 99 99, to be directed to an accessible alternative or to obtain the content in another form. Solyzon answers within five working days and fixes the reported defect as soon as possible.
